

Nutrition Response Testing

Nutrition Response Testing™ (NRT)

What is Nutrition Response Testing™?

Nutrition Response Testing™, developed by Dr. Freddy Ulan, DC, is a non-invasive system of analyzing the body to determine the underlying causes of ill or non-optimal health. This is done by testing the body's neurological reflexes. The reflexes let us know how the body is doing, and in what areas it requires the most assistance. Using the body's responses, we can recommend specific, individualized, whole-food or homeopathic supplements. In this way, we work with you to create a personalized program to allow your body to do the healing required in order for you to feel your absolute best.

D.D. Palmer, developer of modern-day chiropractic, said: "from baby in the high chair, to grandma in her rocker, the axial bones, the spinal vertebrae, are as liable to be displaced by

noxious substances which enter the system in our food and drink or by inhalation, as they are by accident direct.” Palmer understood that nutrition is a key facet of overall health, making it a major concern for the chiropractor and her participants. Understanding that while often subluxation leads to organ dysfunction, we also know that when the body is not properly nourished, it can become biochemically unsound. When that happens, it is the organ dysfunction that can lead to subluxation. In those cases, chiropractic adjustments alone won’t enable the body to truly heal; nutrition must be addressed simultaneously.

For those who are fully committed to healing their bodies, and staying well indefinitely, adding Nutrition Response Testing™ to their chiropractic care can be the boost that is desperately needed. We’ve included Nutrition Response Testing™ in our available services to you because we want you to have access to the best health you’ve ever enjoyed and we can say with certainty that if you are a Nutrition Response Testing™ case nothing will help you more.

Since we began this service at LOL participants who adhere to the program recommendations have seen the following in no particular order, along with many things not listed:

- Clearing of skin issues
- Headache and Migraine frequency decrease/resolution
- Weight loss
- Early glaucoma diagnosis reversed and vision restored to 20/20
- Improved sleep
- Improved emotional state
- Increased energy
- Easier menstrual cycles
- Chronic debilitating neck pain cleared
- Knee pain handled
- Cessation of seizures
- Digestive problems corrected
